DETAILED ACTION

Response to Arguments

Applicant's arguments, see page 2 of remarks, filed 17 January 2006, with respect to claims 1-7, 12 and 14-21 have been fully considered and are persuasive. The rejection of claims 1-7, 12 and 14-21 has been withdrawn.

Information Disclosure Statement

The information disclosure statement file 15 September 2003 has been entered and reference considered by the examiner. See attached 1449.

Examiner's Reasons for Allowance

Claims 1-25 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

As to claims 1 and 16, the examiner agrees with the applicant arguments filed 17 January 2006 (page 2, par. 3). Therefore the prior art of record, taken alone or in combination, fails to disclose or render obvious means for generating a pump light beam and a Stokes light beam that can be directed coaxially/optically through a microscope optical system onto a sample, wherein the means for generating the pump light beam and the Stokes light beam encompass a laser and a micro structured optical element that spectrally broadens the light of the laser and a detector for detecting the detection light proceeding from the sample. Claims 2-15 and 17-25 are allowable by virtue of their dependency on claims 1 and 16.

Additional Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references listed in the attached form PTO-892 teach of other prior art microscope/method for CARS microscopy.
